EDUCATION

Mikroskil University

Bachelor of Informatics Engineering
2021-2025

GPA 3.70

RELEVANT COURSEWORK

- Algorithm & Data Structure
- Object-Oriented Programming (OOP)
- Database Systems
- Web Programming / Web Development
- Mobile Application Development
- Machine Learning

SKILL

- ★ Web & Mobile Front-End Developer (React.JS, HTML, CSS, Tailwind CSS, Dart, Flutter)
- ★ Web & Mobile Back-End Developer (MySQL, Node.JS, MongoDB)
- ★ Design UI/UX (Figma, Canva)
- ★ Team Work
- ★ Communication

ACADEMIC PROJECTS

Mobile Developer - Medical Record Application | Storage

Dart, Flutter, Android

- Building structures using the Dart programming language and Flutter technology
- Doctors can record patient data digitally
- Doctors can edit and delete patient data

Design UI/UX Mobile Application - PetAdopted | Service

Figma, Android

- Creating a user interface design using Figma software
- Choosing design colors to look attractive
- Determining each feature in the application to provide solutions to users

Web Developer - MuseumYog | Admin Panel Ticket

React.JS, Tailwind CSS, My-SQL

- Building display structures using React.JS and a combination of Tailwind CSS styles
- Building a REST API call structure using MySQL
- The admin can add events, edit events, and delete events.

CERTIFICATE

- Dicoding - Memulai Pemrograman Dengan C | 2024-2027
- Dicoding - Belajar Dasar Pemrograman Web | 2024-2027
- Dicoding - Belajar Membuat Front-End Web Untuk Pemula | 2024-2027
- Huawei - Data communication | 2024
- Red Hat - System Administration | 2024
- SIB6 Infinite Learning - UI/UX Web Development | 2024
